DANGERS OF A COLD

Lehi People Will Do Well to Heed Them.

Many bad cases of kidney trouble result from a cold or chill. Congested kidneys fall behind in filtering the poison-laden blood and backache, headache, dizziness and disordered kidney action follow. Don't neglect a cold. Use Doan's Kidney Pills at the first sign of kidney trouble. Follow this Lehi resident's example:

N. E. Darling, prop. Darling Hotel, Main Street, says: "I suffered with kidney trouble and whenever I caught cold it seemed to settle on my kidneys. Then my kidneys acted irregularly and I suffered with severe backache. I was advised to try Doan's Kidney Pills and they gave me complete relief where other remedies had failed to help me. Doan's Kidney Pills are the best kidney remedy I know of."

No Trouble Since. Nearly seven years later, Mr. Darling added: "I have had no further trouble with my kidneys. I believe the cure Doan's gave me is permanent."

A CALL FOR SPECIMENS OF LAND AND WATER LIFE

A call for specimens of all kinds of land and water life of Utah is being sent out among the people of the state by Professor Harold R. Hagan, head of the biological department of the University of Utah. He expects to make a thorough study of the land and water life of Utah in the near future by means of a state biological survey.

"Such a state survey as we are about to undertake will show us the possibility of profitable cultivation of certain wild animals and plants," Professor Hagan said. "I believe there are certain localities in Utah that are ideal for raising such animals as the silver fox. Many of these animals sell for more than \$1000.00 each."

In calling for specimens, Professor Hagan states that animals and plants, whether native to the state or not, are desirable. As a part of the biological survey of the state, the department also desires such small specimens of animal life as insects, snakes, mice, and bats.

All specimens which are received will be placed in the biological museum of the State University for study in connection with the state survey.—P. of U. News Bureau.

Let Us Clean Your Rug FREE!

How many pounds of dirt are there in your rug? Even after a thorough sweeping, your carpets are full of dirt—imbedded grit and dust that is full of germs. Every footstep grinds the dirt down into the nap where it cuts the fibres of your rug, wearing it out.

We will be pleased to call and clean a rug for you with the famous—

HOOVER SPECIAL Vacuum Cleaner

The Hoover cleans quickly and easily. It lifts the rug from the floor, flutters it gently on a cushion of air to beat out the dirt, and draws out every particle of grit and dust by strong suction. A revolving brush picks up threads and all surface litter.

Phone for us to clean your rug today—no obligation to buy!
